## Railroad Commission Grants Sale of Stock

### New Ferry Co. May Sell Shares Under Restriction

SAN FRANCISCO, Oct. 1.—Authority to issue \$800,000 stock has been given by the State Railroad Commission to the San Francisco-Richmond Ferry company.

The new company proposes to establish an automobile ferry between San Francisco and Richmond.

In granting authority the Railroad Commission accompanied its decision with numerous restrictions. It refused to permit the company to accept anything except cash in payment for stock purchases and specified that all prospective stock buyers must be given a copy of the commission's opinion accompanying the order.

The commission also objected to use of the prospective issued by the company in connection with its stock-selling campaign on the grounds that it contained a number of erroneous and misleading statements and should be revised so as to set forth more clearly facts as they exist today.

The company proposes to locate its Richmond terminal on a site to be purchased from the Ellis Landing and Dock company, paying for it \$90,000 in stock. The order does not authorize issuance of any stock at this time in payment for terminal properties but reserves this for consideration in a supplemental order later.

The authority granted does not become effective until the San Francisco-Richmond Ferry company has filed with the commission a stipulation declaring that it shall never claim any value for rights granted it by the Ellis Landing and Dock company under franchise in excess of the amount paid Contra Costa county as consideration for the grant.

### Registration Books Close October 21

Don't fail to register before October 21, which is the last opportunity for you to cast your vote for the presidential nominees at the November election.

Don't expect poor work now to lead to brilliant work hereafter.

### Washington Capitalist Wires For Election Figures

(Special to The Richmond Terminal). WASHINGTON, Sept. 29.—Editor Richmond Terminal: Please wire confirmation of report of harbor bond election victory at Richmond.

CHARLES SUMNER YOUNG.

[Mr. Young is an intimate friend of Congressman Charles F. Curry. He is one of the influential men at the national capital, a former Californian and at one time the largest holder of oil lands in Kern county. He is especially interested in the development of Richmond and the prosperity of its people.—Ed.]

### Bus Drivers Must Cut Out Speeding

Judge Edgar of Berkeley plays no favorites in giving speeders their just desserts—not even the big motor bus drivers, who have orders to "make the time." The San Pablo ave. speed cops at Berkeley are gathering in the drivers, and the bus company has revised their speed schedule. After mangleing and killing an ex-soldier boy of Albany.

### Tokay Grapes Fresh From the Vine

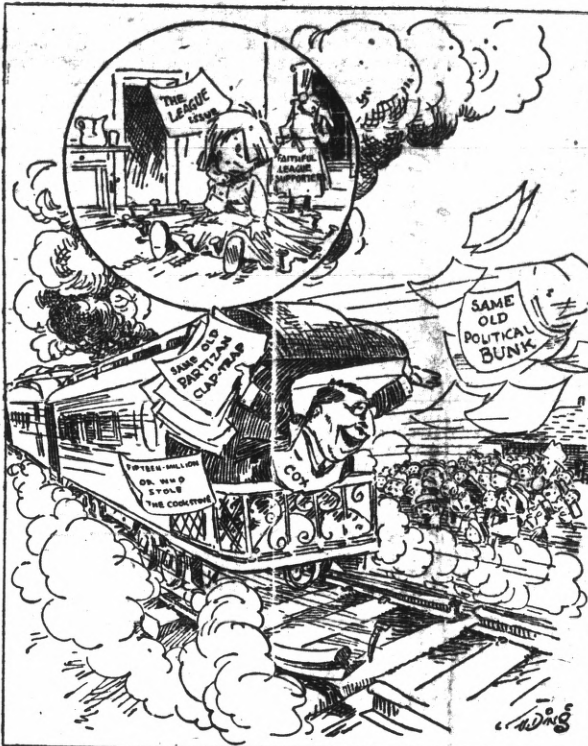

A box of Tokay grapes arrived at this office yesterday from the fruit ranch of V. E. Fortson of Orangevale, near Folsom. There's a difference from the fruit that has been "cuffed around" by middlemen and profiteers and that which is sent in by old friends. Those Tokays are twice as large and much sweeter than the market's culls. And "there is a reason."

Mr. Fortson is an old-time bay city newspaper man and printer. He expects to ship south several carloads of oranges this season, which is "going some" for an ex-newspaper man.

Robert Pillow, of Pillow Bros., is home after a three months, sojourn in Tuolumne county, much improved in health. He reports the first snowstorm of the season in Tuolumne.

## U. S. Mail Airplane Crops Here Over Night

On account of the heavy fog and engine trouble Lieut. Morgan, who pilots army plane 104, was unable to cross the bay Thursday night. He made a landing at First and Macdonald and camped there for the night, the local police guarding the mail, which was sent across the bay by ferry Friday morning.

### POLITICAL NOTES and General Comment

Now that housewives have completed putting up their fruit, sugar is coming down.

That little booklet of Senator Harding's containing reminiscences of his pioneer days in the publishing and printing business is true to life. We all agree that the Senator has "hit the ball."

Governor Cox while in Nebraska, W. J. Bryan's state, did not explain satisfactorily why the advocate of prohibition did not coincide with him in framing that San Francisco platform regarding the liquor question. But Cox did not overlook referring to Senator Harding's brewery stock.

Chester Rowell argues that Sam S. is one of the old reactionaries and therefore should not be supported by real progressives; that Jas. D. is a progressive and comes nearer filling the bill, although a democrat. Chester made another remark recently about the "quality of candidates" who are running this year—a "compressed simile" about canines.

## Mayor of Berkeley Is Exception; Salary Is Ample

BERKELEY, Oct. 1.—Mayor Louis Bartlett in a letter to the city council requested that the proposed charter amendment raising the mayor's salary from \$2400 to \$4000 be omitted from the ballot at the coming special election November 13.

Among other charter changes Mayor Bartlett recommended the San Francisco plan—to do away with the municipal primary election by adopting the preferential system, which permits the voter to express first, second and third choice at one election.

### Council Draft Ordinance to Regulate Street Traffic

The city council Monday night heard the reading of a preliminary ordinance regulating the street traffic of Richmond. When accepted the ordinance will compromise the consolidation of all the present city ordinances, some 25 in number, street cars, motor busses and all vehicles using the streets of the city will be regulated.

### Steamer Corrigan Arrives at Wharf

The steamer Corrigan III is due to dock at the municipal wharf here today to take on 400 tons of pyrites for the Santa Rosalia mines in Lower California. The pyrites were shipped here from Keswick.

"What!" bellowed the bald-headed man. "Fifty cents for a hair cut?" "That's the new price, sir," answered the barber. "Why, I only have a little ring of hair around my ears." "Very well, sir. If you wish me to, I'll trim your ears without extra charge."

### Bank Clearances

The following are the bank clearances for September, 1920:

San Francisco	\$674,476,049
Los Angeles	307,283,050
Oakland	43,529,030
Sacramento	26,828,325
Fresno	17,541,760
Stockton	22,054,538
Berkeley	13,385,333
San Diego	12,660,680
San Jose	10,314,785

## Shipbuilders Gave Elks Good Run at Vallejo

The 10-inning game between the Richmond Elks and the Shipbuilders at Vallejo last Sunday was won by the Elks by a margin of one run, score 9 to 8. The Shipbuilders had Hollis' number from the start, pounding him for eleven hits, Campbell lifting a homer over the fence.

Mickey Shader, the Vallejo twirler, was also nicked for a few, eleven hits being made off the clever Irishman's delivery.

The above clubs lock horns at the First street grounds Sunday, and there will be a big crowd to greet them.

## Missouri Cannot "Show Us" Now

The 1910 census showed that Missouri was in seventh place with population of 3,293,333. California then had a population of 2,377,549, or twelfth place.

The 1920 census gives California 3,426,536 and Missouri 3,403,547, giving California seventh place to date.

## Contra Costa County

Mahe Singh, the Hindu who murdered Ishur and Batten Singh, has been taken to San Quentin, where he will be executed December 17, 1920, in payment for his crimes. Sheriff R. R. Veale took Singh across to the prison Monday, where the Hindu occupies the death cell.

The many friends of Rev. Jas. Rogers, pastor of Pinole-Hercules M. E. church in Pinole, will be pleased to learn of his re-appointment to this field by the Methodist Conference recently held in Oakland. We are glad to welcome Mr. Rogers back, and sincerely hope his next year of work will be as fruitful as the past.—Pinole Times.

## Pat O'Brien Awarded Victoria Cross

LOS ANGELES, Oct. 1.—Pat O'Brien, formerly Richmond resident and later member of the British royal flying corps, who made the sensational escape from a German prison during the war, has been awarded the Victoria Cross. Lieut. O'Brien will be presented with the cross at San Francisco by a representative of the British government.

There remain in army hospitals throughout the country more than 26,000 soldiers still being treated for wounds received overseas. Red Cross workers give them the same sort of friendly aid—only more of it—that was given during the war. Furthermore, the Red Cross is teaching these lads occupations at which they can later make a living and is keeping in touch with their home folks in order that no dependents may suffer for lack of funds.

The Terminal is on file in all the public libraries in Contra Costa county and has hundreds of readers.

## Harbor Bonds Carry By Vote of 7 to 1

### Garbage Problem Will Be Solved If Agreement Is Kept

J. Gale of San Francisco applied to the city council Monday night for a franchise to dispose of Richmond garbage. He would build an incinerator, free from smell or smoke, erect same outside city limits, and dispose of all garbage for a period of 25 years.

Gale went so far in his offer as to fix the scale for collecting garbage—one collection per week, 35c per month. Two collections per week, 15 to 25c extra.

### Judge Quinn of Oakland Is Solving Speed Problem

Superior Judge James G. Quinn of Oakland has a new and effective cure for speed maniacs. Joe Alameda, 29, was arrested on a charge of driving an automobile while intoxicated. Judge Quinn has ordered that Alameda must not drive or even ride in an automobile for one year. Alameda was also put on three years' probation. These restrictions should "hold" Alameda for awhile.

### I. C. Horner Visits His Old N. Y. State Home

I. C. Horner, father of Drs. Harold and Eric Horner and also of Attorney Clare D. Horner, is expected to return from an extended eastern tour next week. The Senior Horner has visited all the principal cities of the eastern and New England states, spending several weeks in New York state among relations where he spent his boyhood days. He is now in Los Angeles.

### NATURAL ANTIPATHY.

"So England will not stand for prohibition pussyfoot methods." "How can you expect approbation of pussyfoot methods from a bulldog nation?"

### Little Opposition to Advancement of Richmond

The victory of the harbor bonds Tuesday was a foregone conclusion. There was slight opposition, and the election passed off quietly, with no excitement or noise.

The victory was complete for the bond issue, there being 2872 votes recorded for the bonds to 409 against.

Proposition No. 2, which carried \$150,000 for additional wharfage facilities also won by approximately the same vote—2781 for, to 459 against.

Proposition No. 1 was to issue \$400,000 in bonds to be turned over to the U. S. government, to match a like sum to be appropriated by congress to widen the channel to the inner harbor and to construct a bulkhead.

Proposition No. 2 was for erecting additional storage building accommodations at the municipal wharf.

That the bond issue was successfully consummated is due to the untiring efforts of the people of Richmond to make this city one of the greatest seaports and manufacturing districts on the western continent.

Great credit is due the "much abused" and criticized realty operators. But without these men in the trenches with their effective organization and enterprise, Richmond would be in a pioneer state today.

There will be unity of action and harmony in Richmond from the date of this memorial election.

The pull-together sentiment is becoming contagious. Now watch us grow.

## Smart New Fall Styles in Women's Suits, Coats & Dresses

Moderately Priced

The "Greatest Mother" concept which was visualized in the famous poster used by the American Red Cross in its second war fund campaign has had its symbolism adapted to the Red Cross works of the post-war era and will illuminate the main poster to be used in the Fourth Roll Call November 11-25. This adaptation will bear the title "Still the Greatest Mother in the World." Everyone is familiar with the original "The Greatest Mother in the World," the effectiveness of which has been shown in part by the fact that it has furnished a synonym for Red Cross that has come to almost a household term. More than any other symbol, except the red cross itself, the public has made it the trademark of the American Red Cross.

## WOMEN ESCAPE WHEN CANNERY FLAMES RAGE

With High Wind Sweeping Up River Firemen Have Stiff Fight

Sacramento.—In a spectacular fire on the river front late September 23, a warehouse of the California Packing Corporation was destroyed, causing a loss estimated at more than \$1,500,000.

When firemen arrived, the building was a mass of flames. Huge volumes of smoke rose from the tanks of oil stored in the buildings.

Scores of cans of fruit shot high as they exploded under the terrific heat. For a time it appeared that the entire building would be destroyed, but hard work by the entire fire department and a brick wall which separated the packing plant from the warehouse served to check the flames before the machinery building was reached.

The Crocker Art Gallery building is in the next block from the packing plant and steps were taken to protect it from the flames.

The fire is believed to have started from a cigarette stub thrown among the boxes or from hot tar being applied to the roof.

J. Starr, a fireman, was slightly injured when struck by falling brick. He was taken to the Emergency Hospital, but walked home.

More than 150 women were in a cannery adjoining the packing-house when the fire started, but easily had time to leave the building before the flames became threatening.

## DE-CENTRALIZATION OF U. S. MARINE CORPS

San Francisco.—The first step in the de-centralization plan of the U. S. Marine Corps was taken when the "Department of the Pacific," to be commanded by Brigadier General George Barnett, with headquarters in this city, was authorized.

With the strengthening of the Pacific fleet, the Marine Corps activities are also strengthened on this coast. The recent bill authorizing an increase in the personnel of the corps from 17,000 to 27,500 has

Gen. George Barnett

necessitated the stimulating of recruiting, and to this end the general will no doubt place his efforts.

General Barnett will have direct command over all marines on the Pacific coast, including stations at Bremerton, Wash., Mare Island and San Diego, Cal., and Pearl Harbor, Hawaii.

The sending of General Barnett to this coast is the first case where a general has been in command in the West. Heretofore the highest officer in command has been a colonel.

With the exceptional force of recruiters and the coming of General Barnett, results along the lines of recruiting are expected to surpass all records since the year 1740, the date of the first authentic record of American marines. The above statement excepts only the periods during the Civil and late World War.

## OLIVE THOMAS' GIRL FRIEND DEAD OF POISON

New York.—Mrs. P. T. Black of McKees Rocks, Pa., September 21, identified the body of her sister, Anna Daly, an actress, who died in a hospital of poison, supposedly self-administered, at a hotel, after receiving news of the death in Paris of her girlhood friend, Olive Thomas, motion-picture star. Miss Daly was registered at the hotel as "Elizabeth Anderson of Chicago."

## HARDING BACKERS 5 TO 1 IN WALL STREET

New York.—The odds that Harding will triumph in the November election continue to soar. Harding backers in Wall Street are offering 5 to 1.

## World News TERSELY TOLD

A still has been confiscated at a ranch near Farler, California, where a score of men are employed.

According to a Shanghai cable 30,000,000 people in northern China are threatened with starvation. The crops are reported, owing to a great drought, to be only 8 per cent of normal.

Estimates of the wheat crops of Argentina, South Africa and Australia show these countries will produce 28 per cent more wheat in 1920 than in 1919. These figures have been deduced by the International Institute of Agriculture.

The arrival of 20,000 aliens at the port of New York last week congested the passenger business at the port. As many as 10,000 of the arrivals could not be inspected because of inadequate facilities.

A San Antonio, Tex., saddlery house has shipped to the Mexican government 1600 sets of harness which will be distributed among the men formerly of Francisco Villa's rebel band.

There has been appropriated for American Red Cross work for the period ending July 1 next, \$48,200,000. Nearly two-thirds of the money will be devoted to activities in Europe which, it is said, faces another winter of much distress.

At a meeting of the division of the American Chemical society in Chicago Thursday there was declared from authoritative source that whereas Germany before the war supplied hundreds of chemicals essential to laboratory work in this country now 800 of these chemicals are produced here.

Sugar made from corn syrup to supply the present deficiency will, it is claimed, be an accomplished fact by New Year. The chemist who discovered the process is Dr. Arthur W. Smith of Baltimore. Scott F. Evans, one of Herbert Hoover's assistants during the war, is the head of a corporation undertaking to manufacture this sugar.

William Huber, proprietor of a shooting gallery at 814 Grand Highway, San Francisco, was shot through the stomach by Emil Martinelli, 12 years old, his assistant. Huber probably will die. At the Park Emergency Hospital, Huber told physicians that the shooting was accidental. Huber lives at the rear of his shooting gallery. He is married.

According to the department of commerce, Mexico promises to become the oil reservoir of the western hemisphere. Oil fields in this country are expected to be exhausted in twenty-five years. The development of Mexican oil fields is in their infancy. Of the money invested in this work about 70 per cent is American capital. The greater part of oil production in Mexico last year was sent to the United States.

## 'WET' PERMITS HELD EXCESSIVE

Washington.—The United States is trying to stop the sale of liquor at the spigot but is letting it flow with perfect freedom at the bungalow, according to Dr. A. B. Adams, aid to Prohibition Commissioner Kramer.

Up to September 1, the doctor said, no fewer than 70,714 permits authorizing the holder to sell or prescribe liquor in one form or another had been granted by the government. This is one permit for every 1570 persons in "dry" America.

Some idea of the gleeful ease with which the bibulous are enabled to obtain anything they want by the quart in New York, Chicago, Philadelphia, Boston, San Francisco, Los Angeles or any other big city now known as wet, can be had from the fact that 3846 individuals or firms have permits to sell liquor, wholesale.

Fifteen hundred and seventy-nine wholesale liquor firms are operating in New York State alone; 767 in Pennsylvania; 306 in Illinois; 206 in Kentucky; 163 in California; 90 in Massachusetts and 64 in Maryland.

Confirmed toppers can laugh at the prohibition amendment, it was pointed out, when 32,960 doctors have permits to prescribe "not more than a pint of whisky at a time." New York heads the list of this astonishing total with 6989 in the state and 8599 in New York City.

## LIGHTHOUSES MAY SOON DISAPPEAR

Modern Wireless Systems Is Plan of Electrical Wizards

Are the days of usefulness of the lighthouse over?

Is the Mariners' Guide, which has furnished the setting for so many romantic stories of sea life, soon to be replaced by modern wireless signals?

Men of science hold this belief.

Some of the Atlantic coast lighthouses and lightships have been equipped with automatic wireless, so that no matter how foggy or dark the weather, a skipper on approaching the coast can, by listening at a wireless receiver in the pilot-house, ascertain its exact position. Frederick Koester, radio expert of the Bureau of Standards, who designed the system, is now in San Francisco looking over newly opened compass stations installed last week to help mariners find their positions offshore.

Koester's scheme obviates the necessity of compass stations and their operators. He equips lighthouses and lightships with sending apparatus which in foggy weather sends on short-wave length a flash signal which can be picked up by vessels along shore. He said:

"Ships would not have to lay outside waiting for a fog to lift, or proceed at a snail's pace by sounding, if all lighthouses were equipped with wireless. In the deepest fog a captain could adjust his compass according to the automatic signals from the lighthouses, and without fear of danger proceed at full speed to port with the assurance that there is no danger of running ashore."

## RETAIL GROCER PROFIT SET AT 3 PER CENT

Del Monte.—That the retail grocer makes only an average net profit of 2 to 3 per cent was the assertion here of Paul Findlay, retail merchant of the California Fruit Growers' Exchange, in a speech before the annual convention of the California Retail Grocers and Merchants' Association at the Hotel Del Monte.

Findlay gave a blackboard demonstration to substantiate the figures set forth. He declared that the public is oftentimes not versed with the small margin of profit enjoyed by the retailer.

The grocers' net annual income depends entirely on the number of times he can "turn over" each dollar during the year. If he can "turn over" a dollar once each week for the year he has only a net income from the dollar of \$1.04 at the rate of 2 per cent net profit.

San Francisco.—Henry Passow, who conducts a furniture store at 1872 Post street, kept no cash drawer in his store. Instead he hid his money in the oven of one of the stoves in his stock and considered it a pretty clever practice until a thorough thief entered the place and Passow discovered that \$175 was missing from his "bank."

## Song of the Cumberlands

By MINNA IRVING  
In Sun and Herald, New York

When love and moonlight rule the world,  
And rich red roses bloom,  
And every dewy night-uncorks  
A vial of perfume,  
I feel a sharp and homesick pain  
Through all my being dart:  
A cabin in the Cumberlands  
Is calling to my heart.

I hear the fiddles tuning up  
So plaintive and so sweet,  
"Dan Tucker" and the "Devil's Dream"  
Are stirring in my feet.  
And 'till the strains of "Old Zip Coon"  
From dreams I often start—  
The cabin in the Cumberlands  
Is calling to my heart.

That cabin in the patch of corn  
Is ages from Broadway,  
But some one's waiting for me there  
In twilight shadows gray.  
I'm lonesome for the mountain folk  
And so must I depart;  
The cabin in the Cumberlands  
Is calling to my heart.

## DEATH PENALTY FOR HINDOO SLAYER

Four Women on Jury Which Returns Verdict After Short Deliberation

Martinez.—Murder in the first degree was the verdict of a jury of four women and eight men in the Martinez Superior Court, September 23, after forty minutes' deliberation, in the case of Mahar Singh, Hindoo, charged specifically with the murder of his countryman, Rhen Singh, at Jersey Island, Sacramento river, on the night of September 15, 1919. Singh admitted to the court that he had murdered not only Rhen Singh, but two other Hindoos, Bannan Singh and Brahm Singh. The verdict carried no recommendation.

Singh eluded the police for nine months after the murders, and was chased from Martinez to Portland, Ore., thence to Seattle, Wash., thence to Los Angeles and from there to San Francisco, where he was arrested last July, when about to board a steamer for India.

Singh claimed that he was insane when he killed two of the men, and his attorney, addressing the jury, urged that the accused was insane when he murdered all three.

After the slaying, Singh said that he rowed across the Sacramento river to Oakley, took a train from there to San Francisco and another train from there to Los Angeles. He wandered about almost one month, he said, being at all times in a daze. He claimed that he had visited almost every city of size in California during that month, even returning to Antioch, where he made two withdrawals of money from a bank.

## PRICES CUT ON COTTON GOODS

Manchester, New Hampshire.—A reduction of 33 1/2 per cent in the price of manufactured cotton goods was announced September 22 by the Ameskeag Manufacturing Company of this city.

The present weekly production of the company, which employs 10,000 operatives in its cotton departments is 4,000,000 yards.

San Francisco.—Thomas McEnroe, 57 years old, chief market inspector for the City Health board, died September 22 at Central Emergency hospital following an attack of heart failure. McEnroe became suddenly ill on a street car and was rushed to the hospital where he died shortly before 8 o'clock. He lived with his wife at 126 Fairmount street.

Los Angeles.—Mrs. James McLees, wife of a rancher, and her granddaughter, Irene Chapman, were killed at Duarte, near here, when the automobile in which they were riding was struck by a Santa Fe train.

Modesto.—Gerald de Witt, 10, who shot and killed Lewis Cooper, 10, in a melon patch at Turlock several weeks ago, has been taken to Linton and placed in the Salvation Army institution there. The boy is not mentally developed.

## WOMEN LEAPS 8 STORIES TO DEATH

Patient Leaves Doctor's Office and Ends Her Life

San Francisco.—A few seconds after leaving Dr. C. F. Griffin's office on the eleventh floor of the Flood building September 23 Mrs. Anna E. Jones of San Jose flung open the window of a narrow light well in the southeast corner of the building, and, under the gaze of her husband and brother, hurled herself to death at the bottom of the light well eight stories below. Suspecting her design, both men had sprung to intercept her, but failed.

The doctor descended with them to the third floor, which is the bottom of the light well, and found death had been instantaneous.

Mrs. Jones was slightly built, 50 years old. Her husband, William G. Jones, 126 Viola avenue, San Jose, and her brother, T. M. Donnelly, 338 East Santa Clara street, that city, brought her to San Francisco to see Dr. Griffin, under whose observation she had been for nervous disorder for a week. The party left the doctor's office, room 1102, at 2:15 p. m., and after they had walked a few paces past the window the woman dashed back, flung it open and sprang out. In the opinion of Dr. Griffin, she acted under "a sudden suicidal impulse." The sash of the window was almost level with her knees. There are two such low windows overlooking the light well.

## WOMEN URGED TO RULE BY VOTE

Washington.—Mrs. O. H. P. Belmont of New York said September 22 that women will use their new power obtained through the ballot to wrest a fair share of "control of life, in its every aspect, from men."

Mrs. Belmont declared: "There is not the slightest chance of women joining forces to any great extent with either the Democratic or Republican parties. The National Woman's party will preserve its organizations intact and by controlling its strength will undoubtedly become the dominant factor at the next national election."

"We shall have woman judges, lawyers, members of Congress and possibly members of the cabinet. We would have had such official representation in time anyway, but it will come rapidly now."

"Women voters see no hope in the thoroughly corrupt old political organizations. The nominations of machine men are cut and dried selections. They are pledged to go through the old reactionary program and give as little as possible to the new forces now sweeping the world and demanding a fair share in life."

San Francisco.—Mrs. Johanna McCarthy, 75 years old, 1919 Page street, was probably fatally injured when she was run down by an automobile while crossing Fell street at Shrader. According to the police the machine bore license plate number 39,596 and is owned by C. Dean, 1205 Ninth street, Eureka. The police say that the driver of the automobile stopped after striking Mrs. McCarthy and got out and looked at her. He then jumped back into the car and drove away. Mrs. McCarthy was taken to the Central Emergency hospital suffering from internal injuries, a fractured leg and numerous cuts and bruises.

San Francisco.—Miss Juanita Russell, a cafe entertainer, turned over to Detectives Frank McGary and James Skelly a diamond brooch valued at \$1000, which was lost by Mrs. Watson Eastman, a guest at the Hotel St. Francis. Miss Russell explained that she had picked up the brooch in a cafe where Mrs. Eastman and a party had been visiting.

## ARACHNE

I watch her in the corner there,  
As restless, bold and unafraid,  
She slips and floats along the air  
Till all her subtle house is made.  
Her home, her bed, her daily food,  
All from the hidden store she draws;  
She fashions it and knows it good,  
By instinct's strong and sacred laws.  
No tenuous threads to weave her nest,  
She seeks and gathers, there or here;  
But spins it from her faithful breast,  
Renewing still, till leaves are rare.

Then, worn with toil and tired of life,  
In vain her shining traps are set,  
Her frosty hair hushed the insect strife  
And glided flies her charm forget.

But swinging in the snare she spins,  
She sways to every wintry wind;  
Her joys, her toll, her errand done,  
Her course the sport of storms unkind.

Poor sister of the spider clan!  
I, too, from out my store within  
My daily life and living plan,  
My home, my rest, my pleasure spin.

I know thy heart when heartless hands  
Sweep all thy hard-earned web away;  
Destroy thy pearls and glittering bands,  
And leave thee homeless by the way.

I know thy peace when all is done,  
Each anchor thread, each tiny knot,  
Soft shining in the autumn sun;  
A sheltered silent tranquil lot.

I know what thou hast never known—  
Sad prelude to a soul allowed—  
That not for life I spin, alone,  
But day by day I spin my shroud.

### THE FALL SKIRT

THE fall skirt is a neat garment which looks a good deal like the spring skirt, but costs more, owing to the European war, which has caused a great scarcity of everything except campaign bunk.

The fall skirt was gotten up last February in the heart of Paris, France, and sent over here to be sold to women who do not care to look like any of their neighbors. To the dull and unpracticed eye of man it is hard to tell a new fall skirt of the 1917 model from the one his wife wore twice in the early spring and discarded after making the horrifying discovery that it was three-quarters of an inch too long to be strictly au fait.

Discarded After Making the Horrifying Discovery That It Was Three-Quarters of an Inch Too Long to Be Strictly au Fait.

is nothing more depressing than a new skirt which is only 75 per cent au fait and folds carelessly about both ankles, instead of tilting back rakishly and blinding the innocent bystander in both eyes.

Great care has been taken, according to the fashion periodicals, to make the fall skirt so long that it can be worn to church with perfect propriety. By actual measurement it will reach to the top of a 12-inch boot, which will prevent anybody from tripping on it. In fact, it is estimated that it is going to be harder to trip over one of the new fall skirts than it is to escape the strident voice of the cafe piano player.

The fall skirt will be made of anything that costs more than it did last winter, but will not be guaranteed against defects of workmanship or material. Stripes will be worn a great deal by women who would look better in some solid, neutral tint like black taffeta. The nervous, high-voiced Scotch plaid will also be favored by wives whose husbands have learned to suffer in silence.

Owing to the increasing hardness of the American woman, the fall skirt will have the same kind of lining as the silk stocking, but the latter will contain a trifle more material.

## Last Night's Dreams

—What They Mean

### DID YOU DREAM OF FIRE?

IN REGARD to dreams about fire the mystics are not entirely agreed. They all seem to agree that simply to dream of a fire is a favorable omen, but some of them attach unfavorable meanings to different circumstances which may arise in connection with the dream fire. Many of them predict that if you dream of a conflagration in which your house or your place of business is burned down, you will have many business troubles, but will come through them all right. Others say that if you see a fire in which the burning houses have fallen down it is a most favorable omen and not so good a one if the houses still stand. The consensus of opinion is that to see any fire and not get burned by it denotes health, fortune and happiness.

To burn yourself in your dreams is not a favorable prognostication, but to dream that you touch the fire and are not burned, a most favorable one. Most authorities agree that while to dream of fire is a promise of good luck, it also means that you are likely to have a quarrel with a friend, though some declare that you must see the fire start suddenly to be sure of a quarrel, and all agree that the dispute will be over a trifle. If you extinguish the fire, a surprise is in store for you. To see a sparkling fire on a hearth or in a stove, denotes plenty of money. If a woman builds a fire without any trouble, she will be happy and have many children.

If she has difficulty in making the fire burn, the omen is the reverse.

The scientists regard the fire dream simply as a reminiscence from our nursery days when we were warned not to play with matches and schedule this dream as one of the typical or standard ones.

As the scientists don't entirely agree with the mystics, and the mystics don't entirely agree among themselves with regard to the significance of dream-fire, it would seem to be a case where each of the rest of us was entitled to his own opinion.

## Memories

By GEORGE MATTHEW ADAMS

IT IS the faculty of Remembering and constantly calling to mind what has gone before, that makes it possible for us to tread forward. It is what saves us from becoming fossilized. It is what enables us to throw off the decaying shell of Self and to renew our strength in Effort and Enthusiasm and in Achievement.

All that you now have of the Old Year are its Memories. How are you going to use them?

Every single life has its Stumbling Times. Every single life has its Climbing Hours. It is the Memory of the thrilling moments, that fairly made our whole consciousness glow with power and satisfaction, that make us feel we are worthy as fighters in the game and as aspirers for a portion of the Joy of this world.

All that you now have of the Old Year are its Memories. How are you going to use them?

Why not resolve here and now that you will just let slide, silent from you, every unpleasant memory of the past, gathering up and tying securely to you the while, every Pleasant Memory that the past has given to you? Make them spurs and incentives to make you bolder, braver and bigger. For—All that you now have of the Old Year—and Years—are its Memories. How are you going to use them?

**CALOMEL MAKES YOU SICK. UGH!**

"Dodson's Liver Tone" better than calomel and can not salivate.

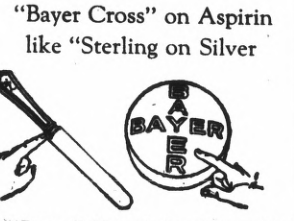

Calomel loses you a day! You know what calomel is. It's mercury; quick silver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.—Adv.

SHARP IS THE WIND

Sharp is the wind today—  
Now, in the middle morning.  
Its guile echoes bay.  
Like hounds that join in the  
horning  
Of bugles at a chase—  
Yet, mixed with these shrill calls,  
Listen! at each returning  
A finer measure falls  
Across the time of yearning  
For summer's rose-shod pace—

Within my soul a low refrain  
Dwells evermore in blither vein  
On purple banks of violets,  
Whose charm of fairy fragrance  
nets  
The greenwood pathways with its  
grace  
And woe a song from sunlit space!

## RIVER AND FOUNTAIN

ONCE there was a Little River running near a beautiful Fountain in a garden.  
In the sunlight Fountain throwing its stream of water made wonderful colors and it sparkled and splashed as it fell into the big basin beneath it.  
"Oh, how beautiful it is," said the Little River looking up at the Fountain.  
"How I wish I could sparkle and make beautiful colors as it does in the sunlight."  
The Fountain tossed its waters higher and splashed louder when it heard the Little River's lament.  
"I am sorry for you," it said, "for it must be quite dull down where you are, and very tiresome, too, running on as you have to over the rough stones."

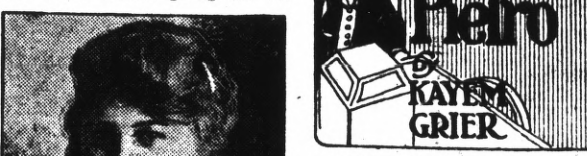

"The world is very beautiful up here and as I dance and splash every one who comes this way stops to admire me. Yes, I pity you and I do not wonder that you admire me and wish you could be in my place."  
The Little River did not dare reply to the Fountain. It was too far above it, and as all the Fountain said seemed true to Little River, it ran along

the skin becomes clogged, the system sluggish, the brain and liver torpid—the whole being desires only more of the useless laziness. But the Turkish woman attends the bath every week, where she is steamed, scrubbed, massaged, lathered, and rinsed with hot and cold water, till her skin is free from every impurity and her whole system is rejuvenated and refreshed.

If you cannot take regular Turkish baths, get a cabinet and take steam baths at home.

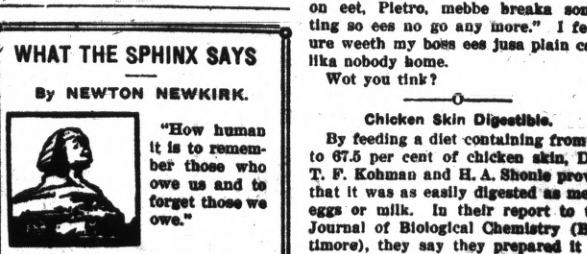

Tincture of benzoin—not a patented article at all—is a good astringent. Wash the face with hot water and liquid green soap, rinse with hot, then cold water and put a few drops of the tincture in this last rinse. It simply closes the pores.

## The Reason Why

A lecturer was talking on the drink question.  
"Now, supposing I had a pail of water and a pail of beer on this platform and then brought on a donkey, which of the two would he take?"  
"He'd take the water," came a voice from the gallery.  
"And why would he take the water?" asked the lecturer.  
"Because you would beat him to the beer," was the reply.—Edinburgh Scotsman.

**Unexpected Answer**  
"Witness," asked the attorney for the defense, who was trying to prove the temporary insanity of the prisoner, "was it this man's habit to talk to himself when alone?"  
"Just at this time," came the answer, "I don't recollect ever being with him when he was alone."—The Watchman Examiner.

**Long-Range Valor.**  
"You're a liar!" drawled the little man.  
"What?" roared the big man, clenching a huge fist. "Do you dare call me that, you poor puny puppy?"  
"I do," came back the defiant reply. "If you speak another word, you lump of pork, I'll soon cut you short!"  
"Cut me short, you cheese-mite," shouted the enraged giant.  
"Yes, and here goes," snapped the poor, puny puppy sharply, and before the burly one could utter a word he hung up the telephone receiver.—Pittsburg Telegraph.

### League of Nations Must Be Backed by the People

In the dust of a political struggle one or more facts in regard to a possible league of nations has been obscured—no league of nations will be worth a whoop in hedges without the people. The plain, horny-handed toilers, the clerks, stenographers, business and professional men must join together and build this modern ark.

Diplomats and dickerers can mess around, make secret bargains, determine the boundaries of various nations, even bring on awful wars. They cannot bring about lasting unity.

Gouging out spheres of influence and trade is getting nearer and nearer to a played out pursuit.

When English laborers take an interest in the well-being of Russian toilers, and Germans quit the Krupps; when law abiding Swiss will not handle munitions; when war munition ships can not be loaded nor unloaded; a league of nations will be superfluous.

An international court of arbitration will be as necessary as are civil courts. In that tribal different nationalities can and will get together. National gun-toting will go out of fashion.

Diplomacy will become a delight of the modern Bayards—gentlemen without fear and without reproach. High ideals will have the right of way.

### Governor James M. Cox In Nebraska Speech

In his Lincoln, Nebraska, speech Governor James M. Cox, democratic presidential nominee, is quoted as referring to Wayne B. Wheeler as a "mere chattel of republican headquarters." Cox said:

"How can Mr. Wheeler explain to conscientious members of his organization his support for the presidency of the United States of a brewer who is apologizing for his holdings?"

Mr. Cox might have stated in connection with the above charges, that brewery stock has slumped out of existence; that breweries and saloons are "dead issues" and forgotten. They have nothing to do with the "case."

### Obdurate and Strong-Headed; Won't Let "Doc" Take a Look

Over in Berkeley the Thespians and the little theatre movement have thus early encountered rough roadways. Sam Hume is biting his thumb at the amateurs, and they are not slow in getting their thumbs to their noses, and wiggling their fingers, all of which is a mighty good preventive of stagnation.

Chief Volmer is in hot pursuit of some young girls who refuse to open their mouths and "let the doctor look at your throat, dear." Up to date the girls are even harder to control than the undergraduate with a bug.

### Seizure of Oil Is an Invasion of Private Rights

The seizure of oil by the government is a lamentable incident.

The United States is not at war with any nation under the sun.

The Shell company is entitled to hold, or to dispose of, its own property as it sees fit. It is also entitled to what protection public sentiment can give.

No American citizen can without sorrow regard such an invasion of private rights.

In another particular the action is harmful. It places the officers and men of our navy practically in the position of law-breakers, and is a cause of odium where only kindness and co-operation should exist.

## NOTICE TO REDEEM

To all owners and claimants of all or any right, title, interest, possession, in or to, or any lien or incumbrance upon, the real property hereinafter described.

TAKE NOTICE—That on the 23d day of December, 1915, the city treasurer of the city of Richmond, county of Contra Costa, state of California, sold the said real property to satisfy the bond of unpaid principal, interest and costs, due under a certain bond known and described as Street Improvement Bond No. Thirty-nine (39), Series No. Thirty-eight (38), issued to represent the assessment upon the said real property for street work on Maine street in the said city of Richmond, under the provisions of an act of the Legislature of the State of California, and known and referred to, as the "Improvement Act of 1911."

That the said real property, so assessed and sold, is situated, lying and being in the said city of Richmond, in the said Contra Costa county, State of California, and described thus:

Lot number Twenty-eight (28), Block number Eleven (11), as delineated and so designated upon that certain map entitled "Townsite of Santa Fe," filed in the office of the Recorder of Contra Costa county, State of California, on March 17th, 1900.

That the said bond was dated March 3rd, 1913.

That the said sale was made to T. Seymour Hall, the purchaser of said sale, and to whom, and in the name of whom, the certificate of said sale was issued, said sale being No. 46.

That the amount or sum for which the said real property was sold was \$112.34, the amount then due.

That the amount or sum now due is one hundred and seventy-six and 15-100 (\$176.15) dollars; and that further interest on the first above amount, at the rate of one per cent per month from this date will also hereafter accrue.

That the time of redemption of the said real property from the said sale will expire on the twenty-second day of October, A. D. 1920.

And that, unless redeemed, the undersigned, assignee of said purchaser will apply for a deed of the said real property on the twenty-third day of October, A. D. 1920.

Witness my hand on date of September 17th, 1920. L. MOUAT, JR., Assignee of Purchaser of the said Certificate of Sale.

## NOTICE OF TRUSTEE'S SALE OF REAL PROPERTY

WHEREAS, Arthur T. Gee, a single man, of the City and County of San Francisco, State of California, did execute a certain Deed of Trust, bearing date the 23rd day of August, 1918, to WILLIAM BRENNER, of the same place, as Trustee for the benefit of and to secure the payment of a certain promissory note to Mrs. Minnie Newman, of said City and County of San Francisco, which deed of trust was recorded in the office of the County Recorder of Contra Costa county, State of California, on the 24th day of August, 1918, in Volume 324 of Deeds, at page 4 thereof, and

WHEREAS, default has been made by the said Arthur T. Gee in the payment of the principal and interest due upon said promissory note, and

WHEREAS, said Mrs. Minnie Newman has demanded that said William Brenner, as Trustee, under the power and authority upon him conferred by said deed of Trust, sell the real property described in said deed of trust and hereinafter described, to satisfy said indebtedness.

NOW, THEREFORE, pursuant to said demand, and in accordance with the terms, and under the authority of, said deed of trust, said William Brenner, trustee as aforesaid, hereby gives notice that on Tuesday the 19th day of October, 1920, at the hour of 12:30 P. M. of said day, on the steps of the city hall in said Town of Richmond, County of Contra Costa, State of California, he will sell at public auction to the highest bidder, for cash in gold coin of the United States, all that certain real property situated, lying and being in the County of Contra Costa, State of California, and particularly described as follows:

Lots numbered 23 and 24, of Block 4, as said lots and block are laid out, delineated and so designated upon that certain map entitled "Hermann's Addition to Point Richmond," which said map was filed for record in the office of the County Recorder of said Contra Costa county on the 18th day of December, 1903;

Also: Lots 13, 31 and 32 of Block 5, as said lots and block are laid out, delineated and so designated upon that certain map entitled "Marine View Terrace," City of Richmond, which said map was filed for record in the office of the County Recorder of said Contra Costa county on the 4th day of March, 1913.

TERMS OF SALE: Cash in gold coin of the United States, ten per cent payable to the undersigned at the falling of the hammer. Balance upon delivery of the deed, and if not so paid, unless for want of title, fifteen days being allowed for search, then said ten per cent to be forfeited and sale to be void.

Dated, Oct. 1st, 1920.

WILLIAM BRENNER, Trustee under said Deed of Trust executed by said Arthur T. Gee.

## NOTICE TO REDEEM

To all owners and claimants of all or any right, title, interest, possession, in or to, or any lien or incumbrance upon, the real property hereinafter described:

TAKE NOTICE—That on the 23d day of December, 1915, the city treasurer of the city of Richmond, county of Contra Costa, state of California, sold the said real property to satisfy the bond of unpaid principal, interest, and costs, due under a certain bond known and described as Street Improvement Bond No. Forty-five (45), Series No. Thirty-eight (38), issued to represent the assessment upon the said real property for street work on Maine street, in the said city of Richmond, under the provisions of an act of the Legislature of the state of California, and known and referred to as the "Improvement Act of 1911."

That the said real property, so assessed and sold, is situated, lying and being in the said city of Richmond, in the said Contra Costa county, State of California, and described thus:

Lot No. Twenty-eight (28), Block No. Twenty (20), as delineated and so designated upon that certain map entitled, "Townsite of Santa Fe," filed in the office of the Recorder of Contra Costa county, State of California, on March 17th, 1900.

That the said bond was dated March 3rd, 1913.

That the said sale was made to T. Seymour Hall, the purchaser of said sale, and to whom, and in the name of whom, the certificate of said sale was issued, said sale being No. 47.

That the amount or sum for which the said real property was sold was \$112.75, the amount then due.

That the amount or sum now due is one hundred and seventy-six and 79-100 (\$176.79) dollars; and that further interest on the first above amount, at the rate of one per cent per month from this date will also hereafter accrue.

That the time of redemption of the said real property from the said sale will expire on the twenty-second day of October, A. D. 1920.

And that, unless redeemed, the undersigned, assignee of said purchaser will apply for a deed of the said real property on the twenty-third day of October, A. D. 1920.

Witness my hand on date of September 17th, 1920. L. MOUAT, JR., Assignee of Purchaser of the said Certificate of Sale.
